<b>Introduction</b> .....	1
<b>Chapter 1. Sexual Initiation</b>	
<i>Highlights</i> .....	3
Seventeen Is the Average Age at First Sexual Intercourse .....	4
Most Are “Going Steady” with First Sexual Partner .....	10
Most Women Had Mixed Feelings about First Sexual Intercourse .....	13
Most Use Birth Control during First Sexual Intercourse .....	20
Few Wait until Marriage before Having Sex .....	25
Among Teens Who Have Not Had Sex, Morals Is the Number-One Reason .....	28
<b>Chapter 2. Teenage Sexual Activity</b>	
<i>Highlights</i> .....	33
Most Teenagers Have Sex before Age 18 .....	34
Many Teens Have Had More than One Sexual Partner .....	38
Few Teens Limit Themselves to Oral Sex .....	43
Most Teenagers Have Not Had Sexual Intercourse in Past Month .....	47
Teens Have Mixed Feelings about Sexual Activity .....	50
<b>Chapter 3. Adult Sexual Activity</b>	
<i>Highlights</i> .....	53
Nearly Everyone Has Had Sex by Their Early Twenties .....	54
Most Women Have Had More than One Sex Partner .....	59
The Largest Share of Men Has Had Only One Sex Partner in the Past Year .....	63
Oral Sex Is Common .....	66
Most Men Have a Long-Term Relationship with Their Sex Partner .....	71
Some Men Have Been Forced to Have Sex .....	73
Most Think It Is OK for Unmarried Adults to Have Sex .....	76
<b>Chapter 4. Sexual Orientation</b>	
<i>Highlights</i> .....	81
Only 2 Percent of Men Say They Are Homosexual .....	82
More than Nine out of Ten Men Are Attracted Only to the Opposite Sex .....	88
Six Percent of Men Have Had Oral or Anal Sex with Another Male .....	93
Among Women, Homosexuals Are Least Likely to Have Had a Sexually Transmitted Infection .....	99
Most Women Think Adoption by Homosexuals Is OK .....	102
<b>Chapter 5. AIDS and STDs</b>	
<i>Highlights</i> .....	105
AIDS Cases in the United States Are Approaching 1 Million .....	106
AIDS Deaths Exceed Half a Million .....	109
The AIDS Survival Rate Is above 80 Percent .....	112
The HIV Death Rate Has Plummeted among Men Since 1990 .....	115
Many People Live with AIDS .....	118
New York State Has Largest Number of People Living with AIDS .....	121
Having Multiple Sex Partners Increases HIV Risk .....	125
Most People Aged 15 to 44 Have Been Tested for HIV .....	129
Many Women Report Having Had a Sexually Transmitted Infection .....	136

## **Chapter 6. Cohabitation and Marriage**

<i>Highlights</i> .....	147
Half of Women Aged 15 to 44 Have Cohabited .....	148
More than One-Fourth of 15-to-44-Year-Olds Cohabited before Their First Marriage .....	152
Most Think It Is OK for Couples to Live Together without Marrying .....	155
Age at First Marriage Varies Widely by Education .....	158
Many Women Are in a Second or Higher Marriage .....	163
Older Boomers Are Most Prone to Divorce .....	166
Marrying Young Often Leads to Divorce .....	171
Men Place Greater Importance on Marriage than Women .....	176

## **Chapter 7. Fertility and Infertility**

<i>Highlights</i> .....	179
Childlessness Has Grown Slightly Since 1990 .....	180
Twelve Percent of Women Aged 15 to 44 Have Impaired Fecundity .....	183
A Large Proportion of Women Take Advantage of Infertility Services .....	188
Men Are Less Troubled by Childlessness than Women .....	199

## **Chapter 8. Contraception**

<i>Highlights</i> .....	203
More Women Are Using Contraception .....	204
Sixty Percent of Catholics Use Contraception .....	208
Most Young Women Who Use Contraception Are on the Pill .....	211
Most Men Used Contraception the Last Time They Had Sex .....	214
Among Women Who Do Not Use Birth Control, 11 Percent Are Trying to Become Pregnant .....	218
Condom Use at First Sexual Intercourse Has Greatly Increased .....	222
Contraceptive Sterilization Is Popular with Increasing Age .....	230
Many Women Use Family Planning Services .....	237

## **Chapter 9. Pregnancy**

<i>Highlights</i> .....	241
Two-Thirds of Women Aged 15 to 44 Have Had at Least One Pregnancy .....	242
On a Scale of 1 to 10, Women Rate Their Happiness with Pregnancies an 8 .....	246
Most Teen Girls Would Be Very Upset If They Became Pregnant .....	250
The Average Woman Has Three Pregnancies in Her Lifetime .....	253
Pregnancy Rate among Women under Age 30 Has Declined .....	255
Sixty-Three Percent of Pregnancies End in a Live Birth .....	260
Twenty Percent of Women Have Been to a Doctor for a Pregnancy Test in the Past Year .....	264
More than 90 Percent of Pregnancies Receive Early Prenatal Care .....	267
More than One in Ten Women Smoke during Pregnancy .....	271

## **Chapter 10. Births**

<i>Highlights</i> .....	275
Women's Average Age at First Birth Has Increased .....	276
Birth Rate Has Risen for Women Aged 30 or Older .....	279
Hispanics Have the Highest Birth Rate .....	282
Forty Percent of Births Are First Births .....	285
Hispanics Account for Nearly One in Four Births .....	287
Older Mothers Are Better Educated .....	290
More than One in Four Babies Are Born by Caesarean Section .....	292
Eight Percent of Babies Have Low Birth Weight .....	295
Amniocentesis Is Performed on Only 2 Percent of Births .....	299
Most Women Aged 15 to 44 Have Had at Least One Child .....	302
The Average Woman Expects to Have Two Children .....	309

Births Outside of Marriage Are Common	312
Nearly One-Third of Women Have Had an Unwanted or Mistimed Birth	317
Most Women Wait Two or More Years between First and Second Births	327
Breastfeeding Is Increasing	330
Most Working Women Take Maternity Leave	333
Most Men and Women Think Out-of-Wedlock Childbearing Is OK	336
<b>Chapter 11. Caring for Children</b>	
<i>Highlights</i>	339
Only 67 Percent of Children Live with Both Parents	340
Many Households Have Stepchildren or Adopted Children	344
Many Women Consider Adoption, Few Adopt	349
Many Women Care for Children to Whom They Did Not Give Birth	355
Twenty-Seven Percent of Fathers Live Apart from Their Children	357
Fathers Who Live Apart from Their Children Are Not Satisfied with Visits	363
Most Mothers Work	375
Working Women Depend on a Variety of Childcare Arrangements	379
Few Young and Middle-Aged Adults Believe in Traditional Sex Roles	384
<b>Appendix: National Survey of Family Growth</b>	389
<b>Bibliography</b>	391
<b>Glossary</b>	393
<b>Index</b>	398

## Chapter 1. Sexual Initiation

1. Average Age at First Sexual Intercourse among Women, 2002	5
2. Average Age at First Sexual Intercourse among Men, 2002	6
3. Age Difference between First Male Sexual Partner and Women Aged 15 to 19 at First Sexual Intercourse, 2002	7
4. Age Difference between First Male Sexual Partner and Women Aged 15 to 44 at First Sexual Intercourse, 2002	8
5. Age Difference between First Female Sexual Partner and Men Aged 15 to 44 at First Sexual Intercourse, 2002	9
6. Relationship with First Male Sexual Partner among Women Aged 15 to 19, 2002	11
7. Relationship with First Male Sexual Partner among Women Aged 15 to 44, 2002	12
8. How Much First Sexual Intercourse Was Wanted among Women Aged 18 to 24, 2002	14
9. How Much First Sexual Intercourse Was Wanted among Men Aged 18 to 24, 2002	15
10. How Much First Sexual Intercourse Was Wanted among Men Aged 18 to 44, 2002	16
11. Women Aged 18 to 24 Whose First Sexual Intercourse Was Involuntary, 2002	17
12. Women Aged 18 to 44 Whose First Sexual Intercourse Was Involuntary, 2002	18
13. Women Forced to Have First Sexual Intercourse, 2002	19
14. Teenage Girls Who Report Birth Control Use at First Sexual Intercourse, 2002	21
15. Teenage Boys Who Report Birth Control Use at First Sexual Intercourse, 2002	22
16. Women Who Report Birth Control Use at First Sexual Intercourse, 2002	23
17. Men Who Report Birth Control Use at First Sexual Intercourse, 2002	24
18. Time between First Sexual Intercourse and Marriage among Women, 2002	26
19. Time between First Sexual Intercourse and Marriage among Men, 2002	27
20. Average Age at First Menstrual Period by Age, Race, and Hispanic Origin, 2002	29
21. Sex Education Experience among Teenagers, 2002	29
22. Reason for Not Having Sexual Intercourse among Teenage Girls by Age, 2002	30
23. Reason for Not Having Sexual Intercourse among Teenage Boys by Age, 2002	30
24. Reason for Not Having Sexual Intercourse among Teenage Girls by Race and Hispanic Origin, 2002	31
25. Reason for Not Having Sexual Intercourse among Teenage Boys by Race and Hispanic Origin, 2002	31

## Chapter 2. Teenage Sexual Activity

1. Sexual Intercourse among Teenagers, 1988 and 2002	35
2. Cumulative Percentage of Teenagers Aged 15 to 19 Who Have Ever Had Sexual Intercourse, 2002	36
3. Teenage Girls' Experience with Sexual Intercourse in Lifetime and Past Year, 2002	36
4. Teenage Boys' Experience with Sexual Intercourse in Lifetime and Past Year, 2002	37
5. Number of Sexual Intercourse Partners Teenage Girls Had in Lifetime, 2002	39
6. Number of Sexual Intercourse Partners Teenage Boys Had in Lifetime, 2002	40
7. Number of Sexual Intercourse Partners Teenage Girls Had Past Year, 2002	41
8. Number of Sexual Intercourse Partners Teenage Boys Had Past Year, 2002	42
9. Opposite-Sex Sexual Experience of Teenage Girls, 2002	44
10. Opposite-Sex Sexual Experience of Teenage Boys, 2002	44
11. Sexual Experience of Teenage Girls, 2002	45
12. Sexual Experience of Teenage Boys, 2002	46
13. Frequency of Sexual Intercourse among Teenage Girls in Past Four Weeks, 2002	48
14. Frequency of Sexual Intercourse among Teenage Boys in Past Four Weeks, 2002	49
15. Attitudes of Teenagers toward Sexual Activity by Sex, 2002	51

## Chapter 3. Adult Sexual Activity

1. Women Who Ever Had Sexual Intercourse by Age and Marital Status, 2002	55
2. Men Who Ever Had Sexual Intercourse by Age and Marital Status, 2002	56
3. Sexual Intercourse Experience of Women Aged 15 to 44 in Lifetime and Past Year, 2002	57

4.	Sexual Intercourse Experience of Men Aged 15 to 44 in Lifetime and Past Year, 2002	.58
5.	Lifetime Sexual Experience of Women Aged 15 to 44 by Age, 2002	.60
6.	Lifetime Sexual Experience of Women Aged 15 to 44 by Age at First Intercourse, 2002	.60
7.	Lifetime Sexual Experience of Women Aged 15 to 44 by Marital Status, 2002	.61
8.	Lifetime Sexual Experience of Women Aged 15 to 44 by Race and Hispanic Origin, 2002	.61
9.	Lifetime Sexual Experience of Women Aged 15 to 44 by Education, 2002	.62
10.	Past Year Sexual Experience of Never-Married Men Aged 15 to 44 by Age, 2002	.64
11.	Past Year Sexual Experience of Never-Married Men Aged 15 to 44 by Race and Hispanic Origin, 2002	.64
12.	Past Year Sexual Experience of Never-Married Men Aged 15 to 44 by Education, 2002	.65
13.	Sexual Experience of Women Aged 15 to 24, 2002	.67
14.	Sexual Experience of Men Aged 15 to 24, 2002	.68
15.	Sexual Experience of Women Aged 15 to 44, 2002	.69
16.	Sexual Experience of Men Aged 15 to 44, 2002	.70
17.	Relationship between Men Aged 15 to 44 and Last Sexual Partner, 2002	.72
18.	Men Ever Forced to Have Sexual Intercourse, 2002	.74
19.	Men Ever Forced to Have Sexual Intercourse by Type of Force Used, 2002	.75
20.	Attitudes of People Aged 15 to 44 toward Sexual Activity by Age and Sex, 2002	.77
21.	Attitudes of People Aged 15 to 44 toward Sexual Activity by Age at First Sexual Intercourse and Sex, 2002	.78
22.	Attitudes of People Aged 15 to 44 toward Sexual Activity by Marital Status and Sex, 2002	.79
23.	Attitudes of People Aged 15 to 44 toward Sexual Activity by Current Religion and Sex, 2002	.80

**Chapter 4. Sexual Orientation**

1.	Sexual Orientation by Sex and Age, 2002	.83
2.	Sexual Orientation by Sex and Marital Status, 2002	.83
3.	Sexual Orientation by Sex, Race, and Hispanic Origin, 2002	.84
4.	Sexual Orientation by Sex and Metropolitan Residence, 2002	.85
5.	Sexual Orientation by Sex and Number of Opposite-Sex Partners, 2002	.86
6.	Sexual Orientation by Sex, Sexual Attraction, and Sexual Experience, 2002	.87
7.	Sexual Attraction by Sex and Age, 2002	.89
8.	Sexual Attraction by Sex and Marital Status, 2002	.90
9.	Sexual Attraction by Sex, Race, and Hispanic Origin, 2002	.90
10.	Sexual Attraction by Sex and Metropolitan Residence, 2002	.91
11.	Sexual Attraction by Sex, Sexual Orientation, and Sexual Experience, 2002	.92
12.	Lifetime Same-Sex Sexual Activity by Age and Sex, 2002	.94
13.	Lifetime Same-Sex Sexual Activity by Marital Status and Sex, 2002	.95
14.	Lifetime Same-Sex Sexual Activity by Race, Hispanic Origin, and Sex, 2002	.96
15.	Lifetime Same-Sex Sexual Activity by Education and Sex, 2002	.96
16.	Lifetime Same-Sex Sexual Activity by Metropolitan Residence and Sex, 2002	.97
17.	Lifetime Same-Sex Sexual Activity by Number of Opposite-Sex Partners, 2002	.97
18.	Past Year Same-Sex Sexual Activity by Age and Sex, 2002	.98
19.	Past Year Same-Sex Sexual Activity by Metropolitan Residence and Sex, 2002	.98
20.	Women Reporting Any Sexually Transmitted Infection except HIV by Sexual Orientation, 2002	.100
21.	Men Reporting Any Sexually Transmitted Infection except HIV by Sexual Orientation, 2002	.101
22.	Attitude toward Gay and Lesbian Adoption by Sex, 2002	.103

**Chapter 5. AIDS and STDs**

1.	Cumulative Number of AIDS Cases by Sex and Age, through 2004	.107
2.	Cumulative Number of AIDS Cases by Race and Hispanic Origin, through 2004	.107
3.	Cumulative Number of AIDS Cases by Region, through 2004	.108
4.	Cumulative Number of AIDS Cases by Sex and Transmission Category, through 2004	.108
5.	AIDS Deaths by Sex and Age, through 2004	.110
6.	AIDS Deaths by Race and Hispanic Origin, through 2004	.110
7.	AIDS Deaths by Region, through 2004	.111
8.	AIDS Deaths by Sex and Transmission Category, through 2004	.111
9.	Three-Year Survival Rate after an AIDS Diagnosis by Sex and Age	.113
10.	Three-Year Survival Rate after an AIDS Diagnosis by Race and Hispanic Origin	.113

11. Three-Year Survival Rate after an AIDS Diagnosis by Transmission Category . . . . .	114
12. Death Rate from Human Immunodeficiency Virus (HIV) Disease by Sex and Race, 1990 and 2002 . . . . .	116
13. Deaths by Cause, 2003 . . . . .	117
14. People Living with AIDS by Sex and Age, 2004 . . . . .	119
15. People Living with AIDS by Race and Hispanic Origin, 2004 . . . . .	120
16. People Living with AIDS by Sex and Transmission Category, 2004 . . . . .	120
17. Cumulative Number of AIDS Cases by State, through 2004 . . . . .	122
18. Number and Rate of Reported AIDS Cases by State in 2004 . . . . .	123
19. People Living with AIDS by State, 2004 . . . . .	124
20. HIV Risk Behavior among Women and Their Partners, 2002 . . . . .	126
21. HIV Risk Behavior among Men, 2002 . . . . .	127
22. HIV Risk Behavior among Men's Sexual Partners, 2002 . . . . .	128
23. HIV Testing by Sex and Age, 2002 . . . . .	130
24. HIV Testing by Sex and Marital Status, 2002 . . . . .	131
25. HIV Testing by Sex, Race, and Hispanic Origin, 2002 . . . . .	132
26. HIV Testing by Sex and Education, 2002 . . . . .	133
27. HIV Testing by Sex, Region, and Metropolitan Residence, 2002 . . . . .	134
28. HIV Testing by Sex, Opposite-Sex Partners, and Treatment for Sexually Transmitted Disease, 2002 . . . . .	135
29. Reported Cases of Nationally Notifiable Sexually Transmitted Diseases, 1950 to 2004 . . . . .	137
30. Initial Doctor Visits for Sexually Transmitted Diseases and Conditions, 1970 to 2004 . . . . .	137
31. Reported Cases of Nationally Notifiable Sexually Transmitted Diseases by Sex, 2004 . . . . .	138
32. Women Reporting Any Sexually Transmitted Infection except HIV, 2002 . . . . .	139
33. Men Reporting Any Sexually Transmitted Infection except HIV, 2002 . . . . .	140
34. Reported Cases of Chlamydia by Age and Sex, 2004 . . . . .	141
35. Reported Cases of Chlamydia by Race and Hispanic Origin, 2004 . . . . .	141
36. Reported Cases of Gonorrhea by Age and Sex, 2004 . . . . .	142
37. Reported Cases of Gonorrhea by Race and Hispanic Origin, 2004 . . . . .	142
38. Reported Cases of Primary and Secondary Syphilis by Age and Sex, 2004 . . . . .	143
39. Reported Cases of Primary and Secondary Syphilis by Race and Hispanic Origin, 2004 . . . . .	143
40. Women Receiving Testing or Treatment for Sexually Transmitted Diseases, 2002 . . . . .	144
41. Treatment for Pelvic Inflammatory Disease, 2002 . . . . .	145
42. Men Receiving Advice from Medical Providers about Sexually Transmitted Diseases or HIV, 2002 . . . . .	146

**Chapter 6. Cohabitation and Marriage**

1. Cohabitation Experience of Women, 2002 . . . . .	149
2. Cohabitation Experience of Men, 2002 . . . . .	150
3. Status of First Cohabitation among Ever-Cohabiting Women, 2002 . . . . .	151
4. Cohabitation Experience Relative to First Marriage among Women, 2002 . . . . .	153
5. Cohabitation Experience Relative to First Marriage among Men, 2002 . . . . .	154
6. Attitude of Cohabitators toward Marriage with Partner, 2002 . . . . .	156
7. Attitude toward Cohabitation by Sex, 2002 . . . . .	157
8. Probability of First Marriage among Women by Age, 2002 . . . . .	159
9. Probability of First Marriage among Men by Age, 2002 . . . . .	160
10. Marriage and Cohabitation Experience of Women, 2002 . . . . .	161
11. Marriage and Cohabitation Experience of Men, 2002 . . . . .	162
12. Current Marital Status of Women, 2002 . . . . .	164
13. Current Marital Status of Men, 2002 . . . . .	165
14. Women's Marital History by Year of Birth, 1935–39 to 1975–79 . . . . .	167
15. Men's Marital History by Year of Birth, 1935–39 to 1975–79 . . . . .	168
16. Marital History of Women by Age, 2001 . . . . .	169
17. Marital History of Men by Age, 2001 . . . . .	169
18. Marriages Reaching Specified Anniversary by Year of Marriage, 1955–59 to 1990–94 . . . . .	170
19. Cumulative Percentage of Women Whose First Marriage Has Dissolved, 2002 . . . . .	172
20. Cumulative Percentage of Men Whose First Marriage Has Dissolved, 2002 . . . . .	173
21. Number of Husbands and Cohabiting Partners in Lifetime among Women, 2002 . . . . .	174
22. Number of Husbands and Cohabiting Partners in Lifetime among Men, 2002 . . . . .	175

23. Attitude toward Marriage by Sex, 2002 .....	177
24. Attitude toward Divorce by Sex, 2002 .....	178

**Chapter 7. Fertility and Infertility**

1. Childlessness among Women by Age, 1990 to 2004 .....	181
2. Childlessness among Women by Age, Race, and Hispanic Origin, 2004 .....	181
3. Childlessness among Men and Women by Age, Race, and Hispanic Origin, 2002 .....	182
4. Voluntary Childlessness among Women, 2002 .....	182
5. Fecundity Status of Women by Age, 2002 .....	184
6. Fecundity Status of Women by Marital Status, 2002 .....	184
7. Fecundity Status of Women by Number of Births and Age, 2002 .....	185
8. Fecundity Status of Women by Race and Hispanic Origin, 2002 .....	185
9. Fecundity Status of Women by Education, 2002 .....	186
10. Men with Infertility Problems, 2002 .....	187
11. Women Receiving Infertility Services by Age, 2002 .....	189
12. Men Receiving Infertility Services by Age, 2002 .....	189
13. Women Receiving Infertility Services by Number of Births and Age, 2002 .....	190
14. Men Receiving Infertility Services by Number of Biological Children and Age, 2002 .....	191
15. Women Receiving Infertility Services by Number of Births and Marital Status, 2002 .....	192
16. Men Receiving Infertility Services by Number of Biological Children and Marital Status, 2002 .....	193
17. Women Receiving Infertility Services by Race and Hispanic Origin, 2002 .....	194
18. Men Receiving Infertility Services by Race and Hispanic Origin, 2002 .....	194
19. Women Receiving Infertility Services by Education, 2002 .....	195
20. Men Receiving Infertility Services by Education, 2002 .....	195
21. Women Receiving Medical Help to Become Pregnant in the Past Year by Age, 2002 .....	196
22. Women Receiving Medical Help to Become Pregnant in the Past Year by Number of Births and Age, 2002 .....	196
23. Women Receiving Medical Help to Become Pregnant in the Past Year by Number of Births and Marital Status, 2002 .....	197
24. Women Receiving Medical Help to Become Pregnant in the Past Year by Race and Hispanic Origin, 2002 .....	197
25. Women Receiving Medical Help to Become Pregnant in the Past Year by Education, 2002 .....	198
26. Women's Attitude toward Childlessness, 2002 .....	200
27. Men's Attitude toward Childlessness, 2002 .....	201

**Chapter 8. Contraception**

1. Current Contraceptive Status of Women, 1982 and 2002 .....	205
2. Current Contraceptive Method Used by Women Using Contraception, 1982 and 2002 .....	206
3. Contraceptive Methods Ever Used by Women by Age, 2002 .....	207
4. Contraceptive Status among Women by Age, 2002 .....	209
5. Contraceptive Status among Women by Marital Status, 2002 .....	209
6. Contraceptive Status among Women by Race and Hispanic Origin, 2002 .....	210
7. Contraceptive Status among Women by Current Religion, 2002 .....	210
8. Current Method of Contraception among Women by Age, 2002 .....	212
9. Current Method of Contraception among Women by Marital Status, 2002 .....	212
10. Current Method of Contraception among Women by Race and Hispanic Origin, 2002 .....	213
11. Current Method of Contraception among Women by Education, 2002 .....	213
12. Contraceptive Use at Last Sexual Intercourse among Men by Age, 2002 .....	215
13. Contraceptive Use at Last Sexual Intercourse among Men by Marital Status, 2002 .....	216
14. Contraceptive Use at Last Sexual Intercourse among Unmarried Men by Number of Biological Children and Number of Sex Partners, 2002 .....	216
15. Contraceptive Use at Last Sexual Intercourse among Unmarried Men by Race and Hispanic Origin, 2002 .....	217
16. Contraceptive Use at Last Sexual Intercourse among Unmarried Men by Education, 2002 .....	217
17. Reason for Not Using Contraceptives among Women by Age, 2002 .....	219
18. Reason for Not Using Contraceptives among Women by Marital Status, 2002 .....	219
19. Reason for Not Using Contraceptives among Women by Race and Hispanic Origin, 2002 .....	220
20. Discontinuation of Contraceptive Method among Women by Type and Reason, 2002 .....	221

21. Condom Use at First Sexual Intercourse by Year of First Sexual Intercourse, 2002	223
22. Condom Use in Past Year Reported by Women, 2002	224
23. Condom Use in Past Year Reported by Men, 2002	225
24. Reason for Condom Use Reported by Men, 2002	226
25. Attitude toward Condom Use among Men Aged 15 to 24, 2002: Embarrassment	227
26. Attitude toward Condom Use among Men Aged 15 to 24, 2002: Appreciation	228
27. Attitude toward Condom Use among Men Aged 15 to 24, 2002: Physical Pleasure	229
28. Contraceptive Sterilization, 2002	231
29. Reason for Contraceptive Sterilization Operation Reported by Women, 2002	232
30. Contraceptive Sterilization Operation Reported by Women, 2002	233
31. Contraceptive Sterilization Operation Reported by Men, 2002	234
32. Vasectomies among Married Men, 2002	235
33. Use of Contraceptive Sterilization by Birth Control Users, 2002	236
34. Women's Use of Family Planning Services, 2002	238
35. Men's Use of Family Planning Services, 2002	239
36. Visits by Men Aged 15 to 24 to Family Planning Clinics, 2002	240

### Chapter 9. Pregnancy

1. Number of Pregnancies in Lifetime by Age, 2002	243
2. Number of Pregnancies in Lifetime by Marital Status, 2002	243
3. Number of Pregnancies in Lifetime by Race and Hispanic Origin, 2002	244
4. Number of Pregnancies in Lifetime by Education, 2002	244
5. Number of Pregnancies in Lifetime by Religion Raised, 2002	245
6. Number of Pregnancies Fathered in Lifetime, 2002	245

# Illustrations

## Chapter 1. Sexual Initiation

Religion has some impact on the age of sexual initiation . . . . .	4
Three out of four teenage girls were “going steady” with their first sexual partner . . . . .	10
Women become less conflicted, men more when they wait to have sex . . . . .	13
Most Hispanics do not use birth control at first sexual intercourse . . . . .	20
Women are more likely than men to wait for marriage . . . . .	25
Girls are slightly more likely than boys to cite moral or religious reasons for not having sex . . . . .	28

## Chapter 2. Teenage Sexual Activity

The decline in sexual experience has been greater for teenage boys than teenage girls . . . . .	34
Boys are more likely to have had multiple sex partners in the past year . . . . .	38
The percentage of teen boys who have experienced oral sex rises with age . . . . .	43
Younger teens are far less likely to be sexually active . . . . .	47
Teens think age 18 is OK for sex . . . . .	50

## Chapter 3. Adult Sexual Activity

Most single women have had sex in the past three months . . . . .	54
Hispanic women are most likely to have had only one sexual partner . . . . .	59
One in four never-married men has had more than one sex partner in the past year . . . . .	63
Men and women are about equally likely to engage in sexual activities . . . . .	66
Nearly 90 percent of men are in a committed relationship with their sex partner . . . . .	71
Blacks are most likely to report being forced to have sexual intercourse . . . . .	73
Women for whom religion is very important are against premarital sex . . . . .	76

## Chapter 4. Sexual Orientation

The proportion of men who say they are homosexual peaks at 5 percent among the never-married . . . . .	82
Many men who have had a sexual experience with another man say they are attracted only to the opposite sex . . . . .	88
Men living in central cities of large metropolitan areas are most likely to have had same-sex experiences . . . . .	93
Among women, bisexuals are most likely to have had a sexually transmitted infection . . . . .	99
Religious beliefs play a big role in men’s attitude toward gay adoption . . . . .	102

## Chapter 5. AIDS and STDs

AIDS hits certain age groups much harder than others . . . . .	106
Blacks and Hispanics account for more than half of AIDS deaths . . . . .	109
Survival rate does not differ much by race and Hispanic origin . . . . .	112
The HIV death rate has fallen among males, regardless of race . . . . .	115
Non-Hispanic whites are a minority of those living with AIDS . . . . .	118
Fifty-four percent of those living with AIDS reside in just five states . . . . .	121
The more sex partners, the greater the exposure to HIV . . . . .	125
HIV testing peaks in the 25-to-29 age group . . . . .	129
Many women have been counseled, tested, or treated for a sexually transmitted infection in the past year . . . . .	136

## Chapter 6. Cohabitation and Marriage

Many cohabitations end in separation . . . . .	148
The likelihood of cohabitation before first marriage peaks among women aged 30 to 34 . . . . .	152
Fundamentalist Protestants are most likely to disapprove of cohabitation . . . . .	155
The probability of marriage is lower for blacks than for Hispanics or non-Hispanic whites . . . . .	158
Twenty-two percent of women aged 40 to 44 are currently divorced or separated . . . . .	163
Fewer than half of women marrying in 1970–74 have celebrated their 25th wedding anniversary . . . . .	166
The less educated have more partners . . . . .	171
Women do not place as much importance on marriage as men . . . . .	176

## Chapter 7. Fertility and Infertility

Women are less likely to be childless than men	180
More than one-third of childless women aged 40 to 44 have impaired fecundity	183
Artificial insemination is uncommon, even among older childless women	188
The older the woman, the less bothered she is by childlessness	199

## Chapter 8. Contraception

Condom use has increased since 1982	204
The influence of religion on contraceptive use is surprisingly small	208
The use of the birth control pill declines with age	211
Thirty percent of men say they used a condom the last time they had sexual intercourse	214
Most women have a reason for not using birth control	218
Most men use condoms to prevent both pregnancy and disease	222
Twenty-eight percent of married men aged 40 to 44 have had a vasectomy	230
Most women aged 20 to 24 have received birth control from a medical care provider in the past year	237

## Chapter 9. Pregnancy

More than 90 percent of women aged 40 to 44 have had at least one pregnancy	242
Women are not happy with unwanted pregnancies	246
Older teens would be more upset by pregnancy	250
Black and Hispanic women have more than four pregnancies, on average, in their lifetime	253
The abortion rate has fallen	255
Most abortions occur within the first 12 weeks of pregnancy	260
Weight gain during pregnancy does not vary much by race and Hispanic origin	264
Educated women are more likely to get early prenatal care	267
College graduates are much less likely to smoke during pregnancy	271

## Chapter 10. Births

Average age at first birth rises with education	276
Births to unmarried women have increased	279
Non-Hispanic whites have the lowest birth rate	282
Sixty percent of births are second or higher order	285
More than 40 percent of births are to Asians, blacks, or Hispanics	287
Nearly half of babies are born to women with at least some college experience	290
Few babies are delivered by midwives	292
Blacks are twice as likely to have a low birth weight baby	295
The incidence of some congenital anomalies rises sharply with age	299
Hispanics are more likely to have had children than blacks or non-Hispanic whites	302
Women aged 15 to 44 expect to have one more child, on average	309
Among men aged 15 to 44 with children, more than one-third have had a child out of wedlock	312
Most births are wanted by both mother and father	317
Multiple births are more common among older women	327
Breastfeeding is more likely for babies born to college graduates	330
Medicaid or government assistance pays for one-third of deliveries	333
The rewards of parenting are worth the sacrifice	336

## Chapter 11. Caring for Children

Asian children are most likely to live with both parents	340
More than one in ten households include adopted or stepchildren	344
Only 1 percent of women have adopted a child	349
The experience of caring for the children of others falls with education	355
Most fathers living apart from their children pay child support regularly	357
Many men do not think they are doing a good job as a father	363
Women with school-aged children are most likely to work	375
Women with a college degree are most likely to use day care centers	379
Fundamentalist Protestant men are the most traditional	384
