Men Have Mixed Feelings about Government	26
Few Americans Own a Gun	29
Americans Support Capital Punishment	32
Chapter 2. Education	
<i>Highlights</i>	37
Men's Educational Attainment Has Grown	38
Middle-Aged Men are the Best Educated	40
Most Men Have College Experience	42
Asian Men Are Most Likely to Be College Graduates	44
Many Older Men Are in School	47
Men's College Enrollment Rate Has Grown	49
Colleges Are Seeing Declines in Male Enrollment in Some Age Groups	52
One-Third of Male College Students Are Minorities	54
Most Older Students Are Part-Timers	56
At Two-Year Schools, Full-Time Attendance Varies by Race and Hispanic Origin	58
Objectives of Male and Female College Students Are Similar	60
Among College Freshmen, Men Are More Confident than Women	62
Men Earn a Minority of College Degrees	64
Men Earn Most Engineering Degrees	67
Men Still Dominate Many Professional Degree Programs	72
Many Men Participate in Adult Education	74
Chapter 3. Health	
<i>Highlights</i>	77
Most Men Are Overweight	78
Among Men, Former Smokers Outnumber Current Smokers	81
High Blood Pressure Is Common among Older Men	86
Many Men Do Not Have Health Insurance	88
Men Account for Fewer than Half of Adults with Arthritis	90
Males Account for Fewer than Half of Physician Office Visits	94
Prescription Drug Use Is Widespread	96
Males Are a Minority of Hospital Patients	98
Few Nursing Home Residents Are Men	103
Heart Disease Is the Leading Killer of Men	105
Chapter 4. Income	
<i>Highlights</i>	109
Men's Incomes Are Growing More Slowly than Women's	110
The Incomes of Men under Age 55 Are Falling	112
Hispanic Men Have Gained the Most Since 2000	114
Men in the West Made Gains between 2000 and 2007	116
Incomes Are Highest for Men Aged 45 to 54	118

Non-Hispanic White Men Have the Highest Incomes	120
Men's Incomes Are Still Far Ahead of Women's	122
Men's Earnings Rise with Education	124
Chief Executives Are the Most Highly Paid Men	126
The Incomes of Male-Headed Households Are Falling	130
Married Couples Are the Nation's Income Elite	133
Male-Headed Families Have Average Incomes	138
Older Men Who Live Alone Have Low Incomes	140
Poverty Has Increased among Men Since 2000	142

Chapter 5. Labor Force

<i>Highlights</i>	147
Labor Force Participation of Men Continues to Fall	148
Unemployment Is Highest among Young Men	150
Hispanic Men Are Most Likely to Work	152
Most Working Men Have Full-Time Jobs	154
Working Parents Are the Norm	156
Dual Earners Account for the Majority of Couples	159
Job Tenure of Middle-Aged Men Has Declined	161
Men Dominate Most Occupations	163
More than One in Four Men Work in Manufacturing or Construction	172
Many Older Men Are Self-Employed	174
Alternative Work Arrangements Attract Older Men	176
Middle-Aged Men Are Most Likely to Be Union Members	178
Most New Workers Will Be Men	180
The Number of Older Men in the Labor Force Will Expand	182

Chapter 6. Living Arrangements

<i>Highlights</i>	185
Most Men Are Married	186
Black Men Are Least Likely to Be Married	188
Divorce Is Highest among Men in Their Fifties	193
Few Children Live with Their Father Only	195
Most Men Are Married Householders	198
Women Outnumber Men among People Who Live Alone	200
Married Couples Are Shrinking as a Share of Households	203
Household Diversity Is Greatest among the Young and the Old	205
Households Vary Greatly by Race and Ethnicity	209
Less than One-Third of Households include Children under Age 18	213
Most Families Find Nest Slow to Empty	215
Married Couples Are Much Better Educated than Single Parents	219
Husbands and Wives Are Alike in Many Ways	221
More than 6 Million Men Are Unmarried Partners	224

Chapter 7. Population

<i>Highlights</i>	227
Number of Men in Their Sixties to Grow Rapidly	228
Males Are Outnumbered by Females	230
Hispanic Population Is Growing the Fastest	232
Less than Two-Thirds of Males Are Non-Hispanic White	234
Diversity of Males Varies Sharply by Age	236
Male Population Grew Fastest in the West	244
Only 14 Percent of Males Move Each Year	250
Slightly More than Half the Foreign-Born Are Male	254
Males Are a Minority of Legal Immigrants	256

Chapter 8. Spending

Highlights259
Married Couples Spend More than Average260
Men Who Live Alone Spend Less than Average271

Chapter 9. Time Use

Highlights283
Leisure Activities Rank Second in Time Use among Men284
Older Men Spend the Most Time Eating and Drinking287
In Dual-Income Couples, Husbands Spend More Time Working289
Caring for Children Is Women’s Work294
Men Have More Leisure time on Weekends297
Nearly Three out of Four Men Are Online299
More than One in Five Men Volunteer302
Men Are in the Minority in Many Religious Congregations304
Males Are the Majority of Participants in Most Sports306

Chapter 10. Wealth

Highlights309
Net Worth Rises with Age310
Financial Assets Have Declined312
For Most Americans, the Home Is Their Most Valuable Asset316
Most Households Are in Debt320
Homeownership Is the Norm for Older Men324
American Workers Lack Retirement Coverage326
Expected Age of Retirement Has Climbed328

3.20	Nursing Home Residents by Age, 2004	.104
3.21	Leading Causes of Death, 2005	.106
3.22	Life Expectancy by Age and Sex, 2006	.107

Chapter 4. Income

4.1	Median Income by Sex, 1990 to 2007	.111
4.2	Median Income of Men by Age, 1990 to 2007	.113
4.3	Median Income of Men by Race and Hispanic Origin, 1990 to 2007	.115
4.4	Median Income of Men by Region, 1990 to 2007	.117
4.5	Income of Men by Age, 2007	.119
4.6	Income of Men by Race and Hispanic Origin, 2007	.121
4.7	Median Income of Full-Time Workers by Sex, 1990 to 2007	.123
4.8	Earnings of Men Who Work Full-Time by Education, 2007	.125
4.9	Median Weekly Earnings of Full-Time Workers by Occupation and Sex, 2007	.127
4.10	Median Income of Households Headed by Men, 1990 to 2007	.131
4.11	Income of Households Headed by Men, 2007	.132
4.12	Income of Married Couples by Age of Householder, 2007	.134
4.13	Income of Married Couples by Work Status of Husband and Wife, 2007	.135
4.14	Earnings Difference between Husbands and Wives, 2007	.136
4.15	Wives Who Earn More than Their Husbands, 1981 to 2007	.137
4.16	Income of Male-Headed Families by Age of Householder, 2007	.139
4.17	Income of Men Living Alone by Age, 2007	.141
4.18	Males in Poverty, 1990 to 2007	.143
4.19	Males in Poverty by Age, Race, and Hispanic Origin, 2007	.144
4.20	Married Couples and Male-Headed Families in Poverty, 1990 to 2007	.145

Chapter 5. Labor Force

5.1	Men's Labor Force Participation by Age, 1990 to 2007	149
5.2	Employment Status of Men by Age, 2007	151
5.3	Men's Labor Force Participation by Age, Race, and Hispanic Origin, 2007	153
5.4	Men Working Full- or Part-Time by Age, 2007	155
5.5	Labor Force Status of Married Couples and Male-Headed Families with Children under Age 18, 2007	157
5.6	Labor Force Status of Men by Presence of Children under Age 18 at Home, 2007	158
5.7	Labor Force Status of Married-Couple Family Groups, 2007	160
5.8	Job Tenure of Men by Age, 2000 to 2008	162
5.9	Long-Term Employment among Men by Age, 2000 to 2008	162
5.10	Male Workers by Occupation, 2007	164
5.11	Men's Share of the Employed by Detailed Occupation, 2007	165
5.12	Employment of Men by Industry, 2007	173
5.13	Self-Employed Men by Age, 2007	175
5.14	Men with Alternative Work Arrangements by Age, 2005	177
5.15	Union Representation of Men by Age, 2007	179
5.16	Workers Entering and Leaving the Labor Force by Sex, 2006 to 2016	181
5.17	Men in the Labor Force by Age, 2006 and 2016	183

Chapter 6. Living Arrangements

6.1	Marital Status of Men by Age, 2007: Total Men	187
6.2	Marital Status of Men by Age, 2007: Asian Men	189
6.3	Marital Status of Men by Age, 2007: Black Men	190
6.4	Marital Status of Men by Age, 2007: Hispanic Men	191
6.5	Marital Status of Men by Age, 2007: Non-Hispanic White Men	192
6.6	Marital History of Men by Age, 2004	194
6.7	Living Arrangements of Children by Race and Hispanic Origin, 2007	196
6.8	Children Living with Their Father Only by Race and Hispanic Origin, 2007	197
6.9	Men by Living Arrangement and Age, 2007	199
6.10	People Who Live Alone by Age and Sex, 2007	201
6.11	Men Who Live Alone by Age, 2007	202
6.12	Households by Type, 2000 and 2007	204
6.13	Number of Households by Type and Age of Householder, 2007	206
6.14	Distribution of Households by Type and Age of Householder, 2007	207
6.15	Distribution of Households by Age of Householder and Household Type, 2007	208
6.16	Number of Households by Type, Race, and Hispanic Origin, 2007	210
6.17	Distribution of Households by Type, Race, and Hispanic Origin of Householder, 2007	211
6.18	Distribution of Households by Race and Hispanic Origin of Householder and Household Type, 2007	212
6.19	Households by Age of Householder, Type of Household, and Presence of Children, 2007	214
6.20	Married Couples by Age of Householder and Age of Children, 2007	216
6.21	Male-Headed Families by Age of Householder and Age of Children, 2007	217
6.22	Stay-at-Home Parents among Married Couples, 2007	218
6.23	Families by Educational Attainment of Householder and Presence of Children, 2007	220
6.24	Age Difference between Husbands and Wives, 2007	222
6.25	Race and Hispanic Origin Differences between Husband and Wife, 2007	223
6.26	Educational Difference between Husbands and Wives, 2007	223
6.27	Men in Opposite-Sex Unmarried-Partner Households by Age, 2007	225

Chapter 7. Population

7.1	Males by Age, 2000 to 2020	229
7.2	Male Share of the Population by Age, 2007	231
7.3	Males by Race and Hispanic Origin, 2000 to 2020	233
7.4	Male Share of the Population by Race and Hispanic Origin, 2007	235
7.5	Males by Age, Race, and Hispanic Origin, 2007	237
7.6	Male Share of the American Indian Population by Age, 2007	238
7.7	Male Share of the Asian Population by Age, 2007	239
7.8	Male Share of the Black Population by Age, 2007	240
7.9	Male Share of the Hispanic Population by Age, 2007	241

7.10	Male Share of the Native Hawaiian Population by Age, 2007	242
7.11	Male Share of the Non-Hispanic White Population by Age, 2007	243
7.12	Males by Region, 2000 and 2007	245
7.13	Males by State, 2000 and 2007	246
7.14	Male Share of the Total Population by State, 2007	248
7.15	Geographical Mobility of Males by Relationship to Householder and Age, 2006–07	251
7.16	Geographical Mobility of Males by Age and Type of Move, 2006–07	252
7.17	Geographical Mobility of Males by Reason for Move, 2006–07	253
7.18	Foreign-Born Males by Place of Birth and Year of Entry, 2007	255
7.19	Foreign-Born Males by Age and Region of Residence, 2007	255
7.20	Legal Immigrants by Age and Sex, 2007	257

Chapter 8. Spending

8.1	Average Spending by Household Type, 2006	262
8.2	Indexed Spending of Married-Couple Households, 2006	265
8.3	Market Shares of Married-Couple Households, 2006	268
8.4	Average Spending of Single-Person Households Headed by Men, by Age, 2005–06	273
8.5	Indexed Spending of Single-Person Households Headed by Men by Age, 2005–06	276
8.6	Market Share of Spending Accounted for by Men Who Live Alone, 2005–06	279

Chapter 9. Time Use

9.1	Men's Time Use and Percent Reporting Activity, 2007	285
9.2	Men's Time Use by Age, 2007	288
9.3	Average Hours Per Day Spent in Primary Activity by Dual-Income Couples with Children, 2003–06	290
9.4	Percent of Married Parents in Dual-Income Couples Participating in Primary Activity on an Average Day, 2003–06	292
9.5	Time Spent Caring for Household Children as a Primary Activity by Sex, 2007	295
9.6	Time Spent Caring for Household Children as a Secondary Activity by Sex, 2007	296
9.7	Men's Leisure Time Use on Weekdays versus Weekends, 2007	298
9.8	Online Activities Ever Done, 2008	300
9.9	Online Activities Yesterday, 2008	301
9.10	Volunteering among Men by Age, 2007	303
9.11	Male Share of Religious Groups, 2001	305
9.12	Sports Participation among Males Aged 7 or Older, 2007	307

Chapter 10. Wealth

10.1	Net Worth of Households, 2001 and 2004	311
10.2	Ownership and Value of Financial Assets, 2001 and 2004	313
10.3	Percent of Households Owning Financial Assets by Type of Asset, 2004	314
10.4	Median Value of Financial Assets by Type of Asset, 2004	315
10.5	Ownership and Value of Nonfinancial Assets, 2001 and 2004	317
10.6	Percent of Households Owning Nonfinancial Assets by Type of Asset, 2004	318
10.7	Median Value of Nonfinancial Assets by Type of Asset, 2004	319
10.8	Debt of Households, 2001 and 2004	321
10.9	Percent of Households with Debt, 2004	322
10.10	Median Value of Debt Owed by Households, 2004	323
10.11	Male Homeowners by Household Type and Age of Householder, 2007	325
10.12	Ownership of IRAs and 401(k)s by Sex, 2004	327
10.13	Participation in IRAs and 401(k)s, 2004	327
10.14	Retirement Planning by Sex of Worker, 2008	329
10.15	Expected Age of Retirement by Sex, 2008	329

List of Charts

Chapter 1. Attitudes

Few young men trust others	6
Few young and middle-aged men are satisfied with their finances	10
Young men are more tolerant of homosexuality	13

Males account for a minority of hospital outpatients and inpatients	98
Only 18 percent of the oldest nursing home residents are men	103
Females live longer than males	105

Chapter 4. Income

Men's median income peaked in 2000	110
Men aged 25 to 34 lost the most	112
The median income of black men was stable between 2000 and 2007	114
The biggest decline was in the Midwest	116
Men's income peaks in middle age	118
Among men, blacks have higher incomes than Hispanics	120
Women's incomes are growing, while men's are declining	122
The more education, the higher the earnings	124
There is a big gap between the top- and bottom-earning men	126
Married couples are the most affluent household type	130
Single-earner couples make much less	133
Nearly half of male-headed families have incomes of \$50,000 or more	138

For men living alone, income peaks in the 35-to-44 age group	140
Among males, blacks are most likely to be poor	142

Chapter 5. Labor Force

Men’s labor force participation rate has fallen in all but the older age groups	148
More than 9 out of 10 men aged 25 to 44 are in the labor force	150
More than 80 percent of Hispanic men are in the labor force	152
Few men aged 25 to 54 work part-time	154
Most married couples with children are dual earners	156
About one in five couples has only the husband in the labor force	159
Job tenure peaks in middle age	161
Men choose different jobs from women	163
Men dominate the construction industry	172
Most self-employed men are aged 35 to 54	174
Alternative work arrangements become more common with age	176
More than 18 percent of men aged 45 to 64 are represented by unions	178
Men will account for more than half of new workers	180
Some age groups will have fewer workers	182

Chapter 6. Living Arrangements

Nearly one-third of men, most of them young, have not yet married	186
Most Asian and non-Hispanic white men are married	188
Divorce is less common among the oldest men	193
Most children still live in a two-parent family	195
Most men head households	198
Most men who live alone are under age 50	200
Among households headed by men, married couples grew the slowest	203
Households of the young differ from those of middle-aged and older adults	205
Nuclear families are most common among Hispanics	209
Among families, those headed by men are least likely to include children under age 18	185
Most male-headed families do not have children at home	213
Many older couples have children at home	215
College experience is the norm for married couples	219
Most husbands and wives share the same educational level	221
Many men in their twenties are unmarried partners	224

Chapter 7. Population

The number of men in their sixties will grow rapidly during the next few years	228
Females outnumber males by more than 4 million	230
Asians are greatly outnumbered by blacks and Hispanics	232
Fewer than 5 percent of American males are Asian	234
Young boys are much more diverse than older men	236
The South is home to the largest share of males	244
Few moves are out-of-state	250
The foreign-born account for a large share of the West’s population	254
Nearly half a million males immigrated to the United States in 2007	256

Chapter 8. Spending

Married couples without children at home spend less than those with children	260
Among men living alone, those aged 35 to 54 spend the most	271

Chapter 9. Time Use

The average man spends more than one hour a day eating and drinking	284
Men aged 25 to 54 have the least amount of time for leisure and sports	287
Fathers have more leisure time than mothers	289
Fathers spend much less time taking care of preschoolers	294
Men spend twice as much time socializing on weekends	297
Many people get news online	299
Volunteering is lowest among young men	302
Men account for a majority of people who say they have no religion	304
Male and female participation in some sports is about equal	306

Chapter 10. Wealth

The youngest householders have little wealth310
Fewer than half of households own retirement accounts312
Home values typically peak in middle age316
The amount of money owed by households declines after middle age320
Most male-headed families are homeowners324
Most working men do not have an IRA or 401(k)326
Few men will opt for early retirement328
